14. Timing and Controls

- 14.1 Target Timing will be used. Digital clocks will be operated by Officials under the control of an MSA approved Timekeeper.
- 14.2 All clocks will be set using BBC or Telecom time signals.
- 14.3 All Controls will open 15 minutes before the Due Time of Car '0' and close 15 minutes after the Due Time of the last Competitor still running, having taken into account any delays.
- 14.4 The rally will consist of Special Stages and Road Sections.
- 14.5 Lateness in excess of Target Time on Road Sections and Special Stages is cumulative. Once a Competitor's cumulative lateness calculated from the previous Main Control exceeds the penalty-free maximum of 15 minutes, the Competitor will be EXCLUDED from the results.
- 14.6 To be classified as a finisher a crew, with their car, must complete the course without incurring the penalty of exclusion and hand in a fully completed damage declaration form with the final time card.
- 14.7 It is the Competitor's responsibility to ensure that his times are correctly recorded and handed in when and where instructed. Should any recorded time not be legible or not appear authentic the Organisers may use any means at their disposal to establish a time. Any adjustments caused by a timekeeper's error must be made at the control in question.
- 14.8 Organisers' times and mileages will be deemed to be correct and will not be subject to protest.

- 14.9 a) Special Stage timing will be to the previous whole second.
- b) Competitors will receive penalties on Special Stages as follows: -
- (i) Under Bogey - Bogey Time
 - (ii) Over Bogey under Target -Actual Time Taken
 - (iii) Over Target -Target Time

Time taken in whole minutes on special stages and on road sections over target time is penalty free, but will count towards cumulative lateness at a rate of 1 minute per minute and, once lost, cannot be regained. If this accumulated lateness exceeds 15 minutes the competitor will be excluded. The organisers reserve the right to delete any section of the event from the results if they deem it fairer to do so.

- 14.10 Road timing will be to the previous whole minute. Competitors can calculate their Due Time of arrival at any Time Control (TC) by adding this Target Time to their recorded time of departure from the preceding TC. On Road Sections following a Special Stage, extra time may be included to allow for any delay at the Special Stage Finish.

14.11 Time Controls

All controls other than Passage Controls (PC's) will be Time Controls (TC's). The following titles shall describe the various types of Time Control:

- a) Main Time Control (MTC) and Service Area In and Out Controls (SI; SO)

A competitor must not enter an MTC, SI or SO area until one minute before the due time of arrival and the time given will be the time at which the time card is handed to the marshal. Penalty for early arrival: one minute per minute.

At each Service Area In Control, a due time at the Service Area Out Control will be given to each competitor and this will allow for a minimum service time.

- b) Special Stage Arrival Control (SSA)

Penalty for early arrival: one minute per minute. In addition to an arrival time, a nominated start time will be given (minimum of 3 minutes after the arrival time). The area between the arrival and start controls will be deemed Parc Ferme.

- c) Special Stage Start Control (SSS)

The stage start marshal will confirm the start time and will then use the start procedure. Once a competitor has clocked in at a SSA, the Start Marshal will assume that they are ready to start the stage. The start will be signalled by traffic lights which will go from RED (15 seconds to go) through AMBER (5,4,3,2,1 seconds to go) finally to GREEN at the start time. In the event of equipment failure, the start procedure will revert to a manual system as per MSA R25.7 – R25.7.1. The visual signal may be the raising of a flag or hand. The time between the SSA and the SSS is dead time and any delays are automatically accounted for.

- d) Special Stage Finish Control (SSF)

At the SSF (Stop line), the competitor will receive a finish time in hours, minutes and seconds. This time in hours and minutes will be the start time for the following road section. Competitors are reminded that any competitor who fails to stop at the SSF must not, under pain of exclusion, reverse to the stop line but must return on foot, MSA R25.6.1 and R32.2.

- e) Passage Control (PC)

At certain points indicated in the road book, PCs will be established in order to collect time cards from competitors. There will be no times recorded at these controls but a competitor failing to provide the necessary documents at any PC will be deemed not to have visited that control.

f) Regroup Control

The Road Book shall specify the controls, if any, where competitors not excluded by reason of having accumulated more than the maximum permitted lateness at that control will start the next section with zero lateness towards exclusion.

14.12 Competitors will be required to start Special Stages at intervals of 30 seconds.

15. Route Notes

- 15.1 The organisers will **NOT** provide Safety Route notes for this event. Competitors may use notes from any other previous event that took place on the Otterburn Ranges, these may be obtained from any source and their use will not be penalized.
